WORK

- **Computer Science Ph.D. Student**
  University of Pennsylvania - Philadelphia, PA
  I research programming languages, with a particular focus on usability of theorem provers
- **Software Engineer**
  Microsoft - Bellevue, WA
  I built data management tools for use in natural language search query understanding, with a focus on privacy compliance

PUBLICATIONS

- **The Search for Constrained Random Generators**
  H. Goldstein, H. Peleg, **C. Torczon**, D. Sainati, L. Lampropoulos, B. C. Pierce.

TEACHING

- **Instructor**
  Introduction to Haskell (CIS 1904)
  University of Pennsylvania
  Spring 2025, Spring 2026
- **Instructor**
  REU Intro PL Seminar
  University of Pennsylvania
  Summer 2023, Summer 2024
- **Teaching Assistant**
  Advanced Programming (CIS 5520)
  University of Pennsylvania
  Fall 2023

TALKS

- **The Search for Constrained Random Generators**
  Conference on Programming Language Design and Implementation
  June 2026
- **Predictable and Interactive Proof Search**
  PSU PL & Verification Seminar
  SUNY Buffalo DBPL Seminar
  March 2026
- **Call-by-Push-Value with Coeffects**
  Jane Street Programming Language Colloquium
  December 2023

PRIOR EDUCATION

- **B.A. Computer Science & Mathematics**
  Rice University
  GPA: 3.97 (Magna Cum Laude)

SELECTED COURSEWORK

- **Computer Science**
  Software Foundations, Advanced Programming, Advanced Topics in Programming Languages, Computer-Aided Verification, Algorithmic Justice
- **Mathematics***
  Honors Linear Algebra, Combinatorics And Graph Theory, Number Theory, Abstract Algebra I - III
  *at Rice University

CERTIFICATES

- **CETLI Teaching Certificate**
  University of Pennsylvania, 2025

SKILLS

- **Programming Languages**
  Lean, Rocq, Haskell, OCaml, Dafny, Typescript, Java, C, Python
- **Natural Languages**
  Spanish, French, American Sign Language
